## RA2H3-19 Vacuum Regulator

### Subject: NEW FAA-PMA Approved RA2H3-19 Vacuum Regulator

Rapco, Inc. announces the *NEW* RA2H3-19 vacuum regulator. This regulator is used in several Piper single applications using Vacuum type systems, including:  
**Piper PA28-140, PA28-151, PA28-161, PA28R-180, PA28-181, PA28-R200, PA28R-201 PA28-201T, PA28RT-201, PA28RT-201T, PA28-236, PA32-260, PA32-300, PA32R-300 PA32RT-300, PA32R-301(HP), PA32R-301(SP), PA32R-301T**

The *new* Rapco, Inc. regulator is a direct replacement for the Airborne Models 2H3-19. The RA2H3-19 has (2) 3/8" hose fittings on the instrument side of the unit and a 5/8" threaded firewall fitting on the pump side. This newer generation air-regulator incorporates vacuum micro-switch for annunciator lighted panels with low vacuum lights.

*Older regulators that have seen more than 10 years in-service life are generally in need of replacement.*

Rapco, Inc. regulators come preset to 5.0 HG in inches of Mercury (Hg) and are tested for constant pressure output at various pressure inputs.

The unit will sell for: \$650.00 = **List**

The regulators are in stock and ready to ship.
